U.S. Patent and Trademark Office PTO-326 (Rev. 11/00)

Part of Paper No.

Serial No. 08/421,055 Art Unit 1733

- 1. Claims 14-15 and 30 are rejected under 35 U.S.C. § 112, first paragraph, for the reasons as set forth in paragraph 4 of the last Office action (viz. section (c) (i.e. lines 7-13) and also section (b) in the last two lines, of this paragraph).
- 2. The rejection of claims 6-32 under the judicial doctrine of obviousness type double patenting is hereby reiterated for the reasons as set forth in paragraph 6 of the last Office action; further along this line, the "two way" test for patentability is seen to be NOT applicable in the instant case, since, while the instant invention and that of George et al. may be related (on their respective faces) as genus-species, the two inventions are seen to be completely different i.e. the invention of George et al. is seen to be a new invention relative to the instant invention, there being no apparent evidence that the later filed invention is or was ever even intended or envisioned as being an IMPROVEMENT over the instant invention i.e. the invention of George et al. is apparently not (i.e. nowhere disclosed or indicated as being envisioned as) an IMPROVEMENT over the invention set forth in the instant application, which foregoing constitutes a necessary criterion or requirement for the application of this NARROW EXCEPTION to the general rule of the "one way" test viz. the "two way" test, as set forth in all of Borah, Braat and Berg.

Art Unit 1733

- 3. The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 6-8, 14-16, 20-26 and 29-32 are further rejected under 35 U.S.C. § 103(a) as being unpatentable over Kinzer et al. taken in combination with either Harrison et al. or Smith et al.
- 5. Claims 12-13 are further rejected under 35 U.S.C. § 103(a) as being unpatentable over Kinzer et al. taken in combination with either Harrison et al. or Smith et al., and further taken in combination with Pletcher.
- 6. Claims 9 and 28 are further rejected under 35 U.S.C. § 103(a) as being unpatentable over Kinzer et al. taken in combination with either Harrison et al. or Smith et al., and further taken in combination with Schappert et al.
- 7. Claims 17-19 and 27 are further rejected under 35 U.S.C. § 103(a) as being unpatentable over Kinzer et al. taken in combination with either Harrison et al. or Smith et al., and further taken in combination with Kan.

Šerial No. 08/421,055
Art Unit 1733

- 8. Applicants' arguments filed 24 January 2002 have been fully considered but they are not deemed to be persuasive. The foregoing art rejections are adhered to essentially for the reasons of record (see paragraphs 9-12 of the last Office action), with the following being noted and/or additionally advanced: (a) Applicants' contentions and arguments with respect to the word "topography" are seen to have merit; however, since this word (by applicants' own dictionary excerpt submission) defines the features of a surface (i.e. of an object) viz. a featured SURFACE, the word "surface" in line 7 of claim 6 is therefore seen to be redundant; and (b) for applications filed BEFORE 29 November 1999, prior art applicable only under 35 U.S.C. § 102(e) is NOT disqualified, precluded or prohibited from being properly applicable under the provisions of 35 U.S.C. § 103(c) i.e. N_B. MPEP § 706.02(1), second paragraph.
- 9. THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS

Šerial No. 08/421,055
Art Unit 1733

OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
